

Dear colleagues,

In the scope of our ERASMUS + project METHODS, we would like to build a broad Network of organizations within field of ICT in Higher Education in order to disseminate the outputs from the project more widely. The envisaged benefit of the METHODS Network is: i) the exchange of practice between the members through the METHODS portal and twinning procedures in order to promote transfer of knowledge between its members; ii) access to a transnational forum of discussion in ICT in Higher Education; iii) the ability to participate in common actions between the members of the METHODS Network, such as: seminars, submission of proposals and development of projects, submission of publications in journals and conferences.

The METHODS website (<http://methods.ju.edu.jo/Home.aspx>) is a key tool that will give you more information about the project. The METHODS website includes the following information/sections:

- ICT in Education news;
- Conferences & seminars: list of national, regional and international conferences, seminars, workshops and other events related to ICT in Higher Education
- Related links: links to relevant websites worldwide;
- Programs & Calls: List and link to the website with programmes and calls with opportunities for international ,collaboration in the fields of ICT in Higher Education;
- Proposal ideas/partner search: Section for presenting proposal ideas or partner search for establishing partnership for developing cooperative projects and activities;
- Database of academic materials: Section for sharing academic materials such as PowerPoints, texts, quiz, assignments, links to international libraries and magazines.

We would like to highlight that your collaboration is very important to all our partners, therefore, we would welcome your contribution in upgrading continuously the METHODS website with information relevant for the above mentioned sections. For that purpose we would like to ask you to complete the information sheet attached.

The contribution of all will be successful to promote an effective network. Everybody is welcome to join and provide information. Please let your colleagues know about the METHODS website and the METHODS Network.

Yours sincerely,

The METHODS Team
